

Air1 90.1 klrd serves my family and many other people we know. they have announcements of local events and an alternative type of music which is uplifting,CLEAN! and I dont have to worry about my kids listening to it, it is a listener suported station.

If air1 is displaced due to LPFM it would be a big loss to our local community, there is no other equal station.

I believe it is in the best public interest to make sure 90.1 klrd (air1)stays on the air.
